

SAURABH SHARMA

Associate Principal Engineer

9811043733	saurabh@activecode.in	LinkedIn	saurabh.activecode.in	New Delhi
------------	-----------------------	--------------------------	---	-----------

Associate Principal Engineer with 15+ years of experience in full-stack and backend engineering, system design, and distributed systems. Strong expertise in Java, Ruby on Rails, React, AWS, microservices, REST APIs, CI/CD, cloud infrastructure, and performance optimization. Proven ability to design scalable, fault-tolerant architectures, improve system reliability, and lead technical initiatives for mission-critical SaaS platforms. Experienced in TDD, DevOps practices, & cross-functional leadership across globally distributed teams.

WORK EXPERIENCE

Bold Technologies | Monster | Associate Principal Engineer

August 2025 – Present

Hybrid: New Delhi

Rails | React | Java | C# | AWS | CloudFront | Architecture

- Architected and modernized the core authentication ecosystem for Monster.com, ensuring high-availability and secure identity management across high-traffic global zones.
- Designed and delivered a secure enterprise Admin Panel for global Single Sign-On (SSO) client management, empowering internal teams to manage Client Credentials flows, execute zero-downtime secret rotations, and map custom token metadata claims.
- Led the architectural design of a unified **Rails** and **React** microservices framework for the AI-driven job marketplace, improving system fault tolerance and baseline API latency.
- Designed and institutionalized automated testing frameworks and API documentation guardrails (**Swagger**) across the engineering organization, enforcing a 95%+ **RSpec** baseline for all mission-critical services.

CareerBuilder | Senior Software Engineer

June 2019 – July 2025

remote

Rails | React | AWS | CloudFront | Architecture

- Developed and deployed core features for the high-volume Ecommerce platform using **Rails** and **React**.
- Automated **CI/CD** pipelines using Jenkins and **ECS**.
- Implemented automated testing suites using **RSpec** to maintain a strict 95% baseline code coverage on payment gateways and customer-facing APIs.

4moles | Engineering Lead

June 2017 – May 2019

on-site: New Delhi | Thailand

Rails | Android | Architecture | Project Management | DigitalOcean

- Led a **team of 4 developers** across **web & mobile** platforms.
- Delivered an improved user experience: TTFB improved from 4s to 0.7s, TTI improved from 12s to 3s.
- Designed complete booking engine using **Redis** and **Action Cable**: improved booking times from ~30s to ~10s, implemented slot locking.
- Architected a scalable deployment pipeline on DigitalOcean using Capistrano.
- Implemented CloudFlare as both WAF and CDN.

Yatra Online Put Ltd | Senior Engineer

August 2014 – May 2017

on-site: Gurgaon

Java | PHP | JavaScript

- Engineered core high-throughput backend components using Java and PHP to process enterprise travel transaction data.

Emaadhyam Online Put Ltd | Software Engineer

September 2011 – July 2014

on-site: Gurgaon

Rails | PHP | Java | C# | JavaScript

- Developed complex multitenant architectures on the Ruby on Rails platform, optimizing database schemas for performance scale at QBox.com.
- Worked on PHP based projects like WordPress, Magento etc.

SKILLS

LANGUAGES & FRAMEWORKS

Ruby on Rails, React/NextJS, C#, NodeJS ,
Java, PHP

CLOUD & INFRASTRUCTURE

AWS (EC2, ECS, ELB, RDS, S3, Route53),
DigitalOcean

TOOLS & WORKFLOWS

System Design & Architecture, Swagger,
Git, GitHub, Jenkins, RSpec, Redis,
Capistrano, Cloudflare

CI/CD & TESTING

RSpec, Jenkins, CI/CD pipelines

SOFT SKILLS

- Mentoring & Coaching
- Cross-functional collaboration
- Technical decision-making
- Project scoping & management
- Learning agility & continuous improvement

EDUCATION

GGSIPIU

2007 – 2011

Bachelors in Technology, Computer
Science
